

CHECK IN POINTE DEVELOPMENT

Freedom Academy of Performing Arts Bug

Development

Freedom Academy of Performing Arts is getting an error message when using QR code check out. It works fine for check in, but for check out they get:

Notice: Undefined variable: from in

/mnt/data/home/704917.cloudwaysapps.com/apqtpvsrqu/public_html/qrcode-checkin.php
(http://704917.cloudwaysapps.com/apqtpvsrqu/public_html/qrcode-checkin.php) on line 286

and no SMS is sent.

Studio Software Survey Mobile Bug

Development

When the studio software survey pops up on mobile, it is grayed out and you can't click anything.

Increase log out time

Development

In profile settings, add a setting for how long to remain logged in before automatically logging out.

15 minutes 30 minutes 1 hour 6 hours 1 day

Copy/Paste Dancers

Development

On the screen where it shows dancers that didn't match, change error message text to:

These dancers did not have a match:

Copy/Paste Dancers middle names fix

Development

Copy/Paste dancers (into show, into dressing room, and into routine). If the dancer has multiple spaces in their name, it doesn't work. For example, "John Joseph Smith" or "Smith, John Joseph" won't match since it has multiple spaces. Can we fix it so it works with multiple names too?

Prevent from Checking In

Development

Add a checkbox onto Dancer Details called "Prevent from Checking In". When dancer tries to check in, respond with error message "This dancer cannot check in. Please contact management." Respond with this error for web check in as well as API.

API for Missing List for Zapier

Development

Add API GET for the missing dancers list for a show.

API parameters will be studio ID and show ID.

Respond with a list of dancer names.

Show Status Display Improvements

Development

Change "Previous Group" to "Previous Routine" Change "Current Group" to "Current Routine" Change "Next Groups" to "Next Routines"

Add settings popup to show status display so user can customize display.

- Option to show larger image.
- Option to hide and resort each of the fields.

Change Show order from Stage Manager

Development

On Stage Manager page, add button under “Show Order” to “Modify Show Order”. Popup a box for user to re-order the routines and save. Have this update the show order and refresh the Show Status Display screens with the new show order.

Stage Manager Edit Fields

Development

Add a button for the lighting, sound, set/prop, etc. fields on Stage Manager page for user to edit notes.

Stage Manager Settings

Development

Add settings in Stage Manager to hide and re-sort the fields on the left side of the page.

API Check In Webhook

Development

Add an API webhook for whenever a dancer gets signed in or signed out.

Post Studio ID Studio Name Dancer ID Dancer Name Show ID Show Name Status (Signed In/Signed Out) Date and Time User Sign Out Name/Relationship (like in Sign In/Out History)

API Waiver Webhook

Development

Add an API webhook for whenever a dancer has a waiver signed.

Post Studio ID Studio Name Dancer ID Dancer Name Waiver Title Waiver Text Date/Time
